

MES 30x17x14

- Mobile Environmental Solutions Inflatable Workstations are built to the NFPA's CH 33 14.4 standard of construction and design requirements.
- Exhaust filters exceed the EPA's 6HHHHHH rule of 98% capture efficiency.
- Mobile Environmental Solutions Inflatable Workstations ventilation air flow exceeds OSHA's 1910.107 requirement of 100 linear feet per minute.
- Mobile Environmental Solutions Inflatable workstations are designed to have a lower flammable limit of less than 10% with clean filters. This 30x17x14 has an estimated 31.3 air exchanges per hour or 1.9 per minute.

DIMENSIONS:

- Exterior Length 29.8 Feet or 9 Meters
- Exterior Width 17 Feet or 5.18 Meters
- Exterior Height from center 14 Feet or 4.26 Meters
- Total footprint 507.11 SQ FT or 46.62 Meters
- Interior Length 28.3 Feet or 8.63 Meters
- Interior Width 114 Feet or 4.26 Meters
- Interior Side Height 10.26 Feet or 3.12 Meters
- Interior Center Height 12.5 Feet or 3.81 Meters
- Interior Door Clearance Height 10.7 Feet or 3.26 Meters
- Inflatable Weight 443 LBS or 201 KG

WARRANTY:

All Mobile Environmental Solutions Inflatable Workstations are made in the United States. New units come with a standard 1-year warranty towards manufactures defects from the date of purchase. Air Movers come with a 2-year warranty when the owner registers them at the time of purchase.

INCLUDED EQUIPMENT:

- 3 Replaceable Exhaust Filters that exceed EPA's 6HHHHHH Rule.
- 18 Replaceable Inlet Filters
- 6 Lower Anchoring support D-Rings
- 12 Upper Support D-Rings
- 6 Roof Support D-Rings
- 10 Replaceable Side Windows
- 12 Tie Down Straps
- 12 Sandbags
- 1 Replaceable Floor
- 1 Replaceable Front Door
- 1 Replaceable Back Door
- 4 Emergency Exits
- 1 Storage Bag
- 1 Repair Kit
- 3 Certified ETL and CE approved 1.5HP 115V 60HZ and 230V 60HZ air movers.
- 2 Air Hose access slots
- 1 Operational Manual
