## 51350 - Pro Series Hammer

- Tool used on coated clip-on wheel weights. Unique without damaging the wheel or the special wheel weight coating.
- Made from steel with back oxide finish
- Replaceable "soft head" design that facilitates the installation and removal of coated wheel weights
- Wide Grip coated handles with opening between grips. Protective material on the tip and replaceable "soft head" to protect the wheel and weight from damage.

51350

## 51355 - Heavy Duty Truck Wheel Weight Hammer

- Will handle with ease the removal and attachment of HD truck weights
- Fiberglass shaft for a lifetime of use
- Comfortable, durable rubber handle
- New chromalloy hooks designed for large wheels and large weights
- Larger 1.75" tip for easier application along with heavier total tool weight require less striking effort
- Longer handle provides added reach on larger wheels
- Use on all truck wheels
- 12" total length

51355

## 51460 - Adhesive Weight Scraper

- Heavy duty construction
- One piece composite
- Can be hit with a hammer
- Resharpen when needed
- Removes wheel weights, emblems, or body molding
- Scrape off wheel weights, stickers, paint, or gasket

- Cast steel body with double soft head
- Hammer is ideal for hammering coated weights
- Solid wood shaft

51490

## 51470 - Soft Head Hammer with Claw Hook

- Cast steel body with soft head
- Hammer is ideal for hammering coated weights
- Claw hook is replaceable
- Solid wood shaft

51470

## 51450 - Soft Head Pliers & Hammer/Weight Scraper

- Removes wheel hubs and dust caps quickly and easily without scratching. Large rubber hammer is designed to prevent damage.

51450

## 51455 - Dead Blow Hammer

- Uni-Cast construction of non-ferrous materials eliminate sparking and won't absorb liquids
- No exposed metal on face, head or shaft
- Dead-blow function uses steel shot to eliminate bounce back.
- Handle is reinforced with steel to provide strength and safety and to prevent breaking on overstrike
