

OVERVIEW

The Ergo-SCOOT is the latest addition to the Ergochair lineup, and much like the other models, it's a fantastic choice when you need to get hard work done, comfortably. This reclining low-profile creeper seat provides enhanced mobility on a stable platform as you work on, around, and under vehicles.

FEATURES

- Thermoplastic rubber wheels that are resistant to chemicals, acids, alcohol, and water
- Wide, large diameter wheels ease travel over rough surfaces.
- Heavy-duty non-slip textured marine-grade vinyl
- Comfortable thick, padded seat and backrest
- Heavy-duty ball-bearing TPR swivel casters
- Spring loaded backrest
- Adjustable risers covert low-profile creeper to rolling work seat.
- Gas spring height adjustment
- Locking pins adjust seat height from 14 to 18-inches off the ground.
- Rated to 350-pounds maximum capacity.

ENHANCES EFFICIENCY

The Ergo-SCOOT has been designed to accommodate operators of all kinds, whether you work in the automotive industry or as an airplane mechanic. Sporting a thick padded seat, this comfortable rolling work seat offers a full range of mobility, thanks to its sturdy casters. Adjustability is the name of the game with the Ergo-SCOOT. A gas spring supports the backrest and allows you to work in positions ranging from $\approx 5^\circ$ to 60° , and if you need even more space be sure to check out the Spacer Kit which will increase the ground clearance to ≈ 1.2 in. / 30 mm.

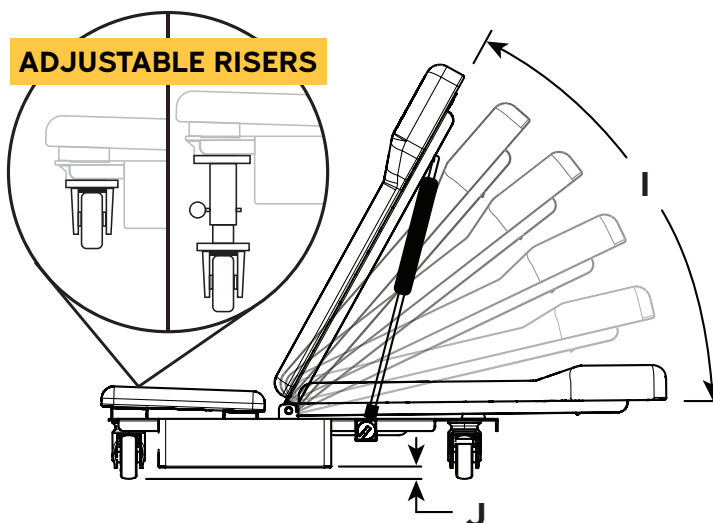

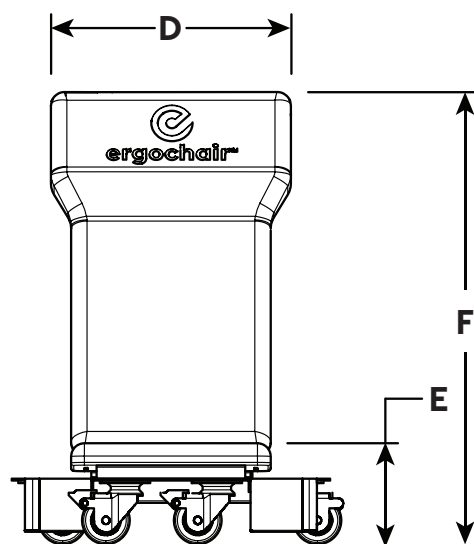

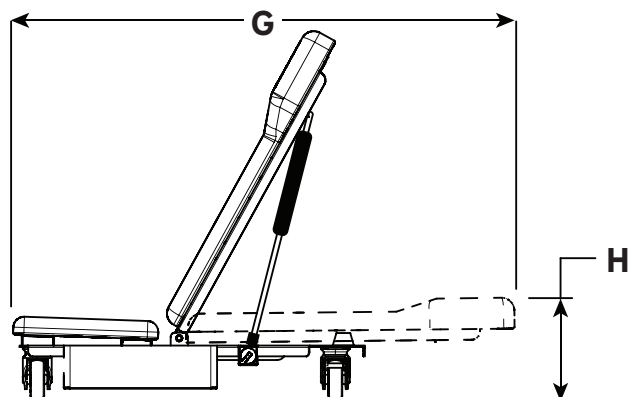

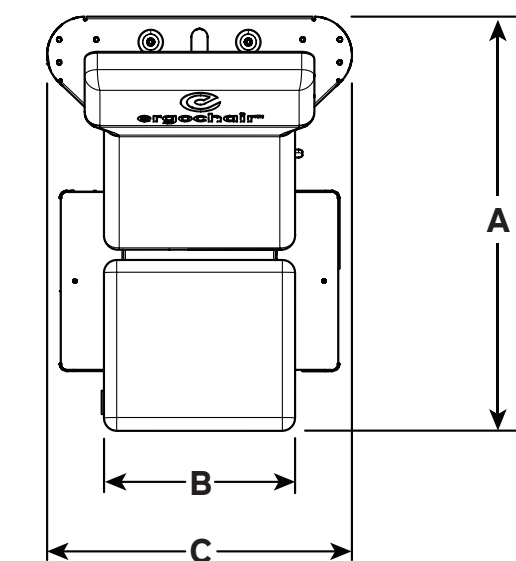

When it comes to manual labor, good ergonomics is one of the most important aspects. When you invest in healthy ergonomics, you're investing in your employees' health. You're making sure that workers stay productive, happy, and in great shape. By reducing back and neck pain and minimizing time in awkward positions, the Ergo-Scout enhances efficiency and the overall wellness of your employees.
