

NEW TOOL

Door Skin Pliers DF-DSP310

Secure the new door skin in place while installing new door skins!

The DF-DSP310 Door Skin Plier is a must have in every collision repair technician's tool box. The Door Skin Pliers are a high quality, adjustable locking clamp specifically designed to hold a door skin in place while allowing full access to the rear door frame flange. Equipped with a large rubber pad on the front to prevent the risk of damaging the front of the door skin. The "T" bar on the rear side of the clamp allows the user to clamp down the door skin and hold it while bending the skin flange around the door frame. It is recommended to use them in pairs, the DF-DSP310 is economically priced and carries 90 day warranty.

APPLICATION

Holds the door skin firmly in place when installing a new door skin.

FEATURE & BENEFITS

- **LARGE RUBBER PAD** - Prevents the risk of damaging the front door skin.
- **T-BAR** - Spreads the clamping force and the cushioned outer pad prevents paint marring.
- **ADJUSTABLE & LOCKABLE**- Customize the clamp to perfectly fit the required opening and position needed.
- **HIGH QUALITY** - Quality product that you can trust.
