

NEW TOOL

EZ Nitro Generator DF-EZG1

Upgrade your bottle-fed plastic welder to generate its own nitrogen!

Upgrade most brands of Plastic Welder with the DF-EZG1 EZ Nitro Generator and "Ditch the Bottle", Never Run out of Nitrogen AGAIN! Dent Fix's revolutionary Dual Chamber Separating System transforms your compressed shop air into an endless supply of both regulated & high pressure nitrogen. PLUS you can also fill your customer's tires with beneficial nitrogen and/or safeguard the internals of your pneumatic tools by powering them with nitrogen from the EZ Nitro Generator! Kit includes install kit to connect to most popular plastic welders.

APPLICATION

Converts shop air into nitrogen to run a nitrogen plastic welder, power air tools, or fill a tire with N2.

FEATURE & BENEFITS

- GENERATE NITROGEN - Connect the unit to shop air & never refill another N2 tank.
- NO TANK TO REFILL - Never run out of N2 in the middle of a job.
- RUN AIR TOOLS WITH N2 - Safeguard your air tools by powering with N2 which has less moisture content than shop air.
- FILL TIRES WITH N2 - Customer will love receiving their repair vehicles with freshly filled N2 in their tires.

SPECIFICATIONS

Manufactured: USA
FITS: Most nitrogen plastic welders

WORKS WITH

DF-EZN1 | MOST PLASTIC WELDERS

CAPABILITIES

STORAGE

Compact design fits and replaces the tank location on most popular nitrogen plastic welders. Can also be transported to a desired location, with shop air connection, to refill tires or run air tools.
