15-Gallon & 25-Gallon Poly Portable Fuel Caddies

NOTABLE FEATURES

- Fill and transport in a "lay-flat" horizontal position
- Gravity-Flow design
- Optional Two-way Pump Kit
- UN/DOT Approved

8' Dispensing Hose

Spring-Loaded Dispensing Nozzle

Hand Siphon Pump

Included:

Remove the Dispensing Nozzle and this Hand Siphon Pump easily attaches to the 8' Dispensing Hose to make fueling on level ground possible when gravity flow isn't practical.

These portable poly fuel caddies provide a safe, effective and affordable method for storing and transferring fuel. Models are available in red for gasoline (15- and 25-gallon), and yellow for diesel (25-gallon).

These fuel caddies are all UN/DOT and Transport Canada Approved and are ideal for automotive, landscape, marine, commercial and recreation applications. The blow-molded high-density polyethylene prevents corrosion and denting. Use as gravity-flow, or upgrade to a heavy-duty, two-way rotary pump kit. The GG-PRK13 pump kit easily fills fuel-powered equipment when gravity flow isn't practical.

Molded Handle

2" Filler Neck with Vented Fill Cap

High Molecular Weight, High-Density Polyethylene Body

8" Heavy-Duty Pneumatic Tires/Wheels

Shut-Off Valve

Specifications	FC-15PFC
Capacity	15 Gallons
Fuel Capacity	2 GPM - Gravity Flow
Dimensions	34"H x 22"W x 17"D
Weight	36 lbs.

15-Gallon & 25-Gallon Poly Portable Fuel Caddies

FC-15PFC & FC-25PFC

2" Filler Neck with Vented Fill Cap

High Molecular Weight, High-Density Polyethylene Body

Shut-Off Valve

Molded Handle

8' Dispensing Hose

Spring-Loaded Dispensing Nozzle

10" Heavy-Duty Pneumatic Tires/Wheels

FC-25PFC-D

Available in Yellow for Diesel & Biodiesel

Cnacifications	FC-25PFC & FC-25PFC-D
Specifications	FG-25PFG & FG-25PFG-D
Capacity	25 Gallons
Fuel Capacity	2 GPM - Gravity Flow
Dimensions	43"H x 22"W x 17"D
Weight	41 lbs.

Optional Two-Way Pump Kit GG-PRK13

This two-way pump provides pump-assisted fueling when gravity flow isn't ideal. Use with gasoline, diesel, kerosene and biofuels.
