

0.5-Gallon Pneumatic Brake Fluid Exchanger

JDI-050EV

NOTABLE FEATURES

- Chemical-resistant heavy-duty polyethylene construction
- Full-color retail packaging

Removing and replacing fluid is now a one-person job. This Pneumatic Brake Fluid Exchanger makes brake bleeding clean and simple using compressed air and a venturi vacuum system. Use to evacuate a variety of other fluids from vehicles or small engines. Includes a bleeding tube and fluid refill bottle.
