

# 701 Benchtop Mortiser

*The Gold Standard Since 1921.®*

**POWERMATIC®**

# 701 Benchtop Mortiser

## FEATURES

In line depth stop which allows you to stop at preset depths without racking the drill bit to the base

Heavy duty reversible handle that can be changed from one side to the other quickly and easily and requires no tools to do so

The stock hold down features a double lock system, one locks from the side the other locks from the top to completely eliminate any slippage when removing the chisel from the work piece

Quick action cam lock will quickly lock the fence into position with one 90 degree movement. The lock also feature lock nuts so once set they will not have to continually be adjusted

Integrated bit and chisel spacer. Two spacers are used to accurately and quickly determine for the space needed between the bit and chisel during set up

Large work surfaces in the table and fence allow for more stability and accurate cuts

Large hinged chuck door with magnetic catch allows you to easily access the drill chuck with the standard 4" chuck key to lock the bit in place

Rack and pinion allows for simple and quick fence adjustments

<b>Model</b>	<b>701</b>
Stock Number	1791310
Spindle Speed (RPM)	1,725
Chuck Capacity (in.)	1/2
Chisel Shank Capacity (in.)	3/4
Head Stroke (in.)	5-1/2
Chisel Center to Fence (in.)	4-3/8
Under Hold-Down (in.)	4
Fence Size (in.)	2-5/8x12-1/2
Base Size (in.)	16-5/16x13-3/4
