

Assembly Instructions and Parts List
21" Bed Extension for JWL-1015/1015VS Lathes
Stock No. 719101

WARNING Read and understand the entire owner's manual that accompanied your JWL-1015 lathe before attempting assembly or operation of accessories.

Inspect contents for shipping damage. Report any damage or part shortages to your distributor. Do not discard shipping materials until accessory is set up and functioning properly.

Shipping contents

- 1 Bed extension
- 2 Socket head screws, 5/16x1
- 2 Lock washers, 5/16
- 2 Flat washers, 5/16
- 1 Positioning plate
- 1 Pan head screw, 1/4x1/2

Tools required for assembly

- 1/4" hex key ("Allen wrench")
- Cross point screwdriver

Assembly

(Bracketed numbers refer to index numbers in the exploded view.)

1. Use the pan head screw [1] to attach plate [2] to end of bed extension [3] where the beds will meet.
2. Place bed extension against lathe bed and hold in place with the plate [2].
3. Insert two socket head screws [6], lock washers [5] and flat washers [4]. Align beds as closely as possible, then snug the screws but do not fully tighten yet.
4. Move tailstock over the seam of lathe bed and bed extension and align the clamping nut in the center where the beds meet. (Shift bed extension as needed until tailstock can slide onto it). Tighten tailstock clamping lever – this will properly align and make flush the beds.
5. Tighten both socket head screws [6].
6. Unlock tailstock, and slide it back and forth across seam to verify smooth travel.

Specifications

Stock number	719101
Assembled dimensions	21" L x 7-1/4" W
Net weight	23 lb
Shipping dimensions	21.61" L x 7.52" W x 8.46" H
Shipping weight	25 lb
