Shipped with both 1" and 3" lifting pads

- ★ Reliable
- ★ Low maintenance
- ★ Durable, versatile and easy to use
- ★ Fast and smooth operation
- ★ Full-Pneumatic operation
Unlike most jacks, which are air over hydraulic construction, QSP's are pneumatic - no oil leaks
- ★ Lifting height is 8"
- ★ Can be configured to fit most OEM 4 Post and Scissor Lifts
- ★ Lowering is accomplished with one hand on the release lever and the other hand releasing the mechanical safety stop.
- ★ Shipped upright on a pallet for ease of installation.
