

T.O.M.C.A.T. Air-Assisted Multiple Camber Adjustment Tool

TC-614

NOTABLE FEATURES

- Air control valve for inflating and controlled deflating
- Safety relief valve to prevent overinflating
- Weight: 2 lbs.

Makes camber adjustment a one-man job. Works on GM and Chrysler vehicles using a two-bolt lower strut mount. Inflatable air bladder fits between tire and strut for easy and controlled adjustment of camber settings.

Easy-To-Use

- With strut mount bolts loosened, place the T.O.M.C.A.T. between the tire and strut
- Inflate the T.O.M.C.A.T. to push the wheel to a positive camber position
- To adjust the camber, slowly release air from the T.O.M.C.A.T. until the wheel retracts to the specified alignment setting
- Tighten the bolts and the adjustment is done
