

TIRE SERVICE INTERNATIONAL

TI-95 Tire Inspector

- **The TI-95 Tire Inspector is designed to inspect non mounted passenger car and light truck tires from 13" to 24.5".**
- **Allows the operator to inspect tires for sidewall, tread and bead leakage on non mounted tires.**
- **Quick and easy inspection is accomplished by using an expandable hub and expandable rim assemblies.**
- **A standard 1/4", 90 PSI air line operates the unit and no electricity is required**
